

Humidification and Evaporative Cooling

PICO PUMP RACK

As a custom humidifier manufacturer, we understand that humidity loads vary greatly from job to job. For example, some projects may require over 5,000 lbs/hr whereas a small print shop or clean room may only need 100 lbs/hr or less.

These smaller projects can be difficult because the humidity load is too low to justify the cost for a commercial humidifier and too high for a residential unit.

The Pico Pump Rack bridges this gap without sacrificing quality. All units come with the normal bells and whistles you've come to expect (PLC, VFD, CAT Pump), but at a fraction of the size and cost.

GoFog™ Pico Pump Rack

Model	Pico-150	Pico-250	Pico-375
Maximum Output (LBS/HR) / (GPM)	150 / 0.3	250 / 0.5	375 / 0.75
Operating Pressure (PSI/BAR)	1,000 / 69		
Maximum Pump Speed (RPM)	1,725	1,725	1,725
Motor (HP) / VFD (HP)	0.75 / 1	0.75 / 1.5	1 / 1.5
Weight (LBS)	90	95	105
Inlet Water Connection	3/4"		
Controller	Horner XL4 OCS with 3.5" Color Touchscreen		
Overall Dimensions	24"W x 22"D x 50"H		

About GoFog, Inc.

Headquartered just outside of Charlotte NC, GoFog provides custom built atomizing humidifiers for the commercial, industrial, and agricultural markets.
